## ACCU-CHEK Instant Meter Strips

catalog number: ACCUPASKI

Kod EAN: 4015630067114

**Producer: Roche**

Preparation for shipping: 1 day

### Price

15,00 EUR

## Product description

**Accu-Chek Instant Glucose Meter 50 test strips** are designed for the quantitative measurement of glucose in fresh capillary whole blood from the finger, hand, forearm and upper arm, as an aid in monitoring the effectiveness of glucose control.

### Action:

The Accu-Chek Instant System meets the requirements of ISO 15197: 2013 (In vitro diagnostic test systems - Requirements for blood glucose monitoring systems for self-monitoring in diabetics). Calibration and traceability:

Storage 30 ° C

### Directions for use:

A study evaluating glucose values measured in capillary blood samples from a fingertip from 101 people without any special training gave the following results:

With blood glucose levels below 100 mg / dL (below 5.55 mmol / L), 100% of the measurement results were within  $\pm 15$  mg / dL (within  $\pm 0.83$  mmol / L) of the laboratory procedure measurement results.

At blood glucose levels equal to or greater than 100 mg / dL (equal to or greater than 5.55 mmol / L), 96.7% of the measurements were within  $\pm 15\%$  of the laboratory procedure measurements.

Accu-Chek Instant Test Strips provide results that correspond to plasma glucose levels as recommended by the International Federation of Clinical Chemistry and Laboratory Medicine (IFCC). Therefore, the meter displays values in relation to plasma glucose even though whole blood is always applied to the test strip.

### Box with 50 strips
