Product description

Strawberry jam no sugar added sweetened with erythrole and stevia by **Pure & Good**

Strawberries sweetened with stevia are our proposal for an excellent and healthy ingredient of dishes and desserts. What is worth emphasizing, they are made only from high-quality fruit, not from pre-mixed fruit masses. Produced on the basis of refined and protected recipes, they are a rich source of vitamins and nutritional values with an excellent, unique taste.

Excellent consistency and unique taste go great with fresh bread or dessert. The use of stevia and erythrol instead of sugar makes our product have a lower calorific value than traditional jams.

Composition: strawberry 70%, apple juice, sweeteners (erythritol, steviol glycosides 0.05%), gelling agent (pectin), acidity regulator (citric acid).
